Topic: Chaos Engineering in Theory and Practice

Speaker: Sean Swehla

When: Monday, October 21st, 2019, 7:30 pm

Where: Marist College, **Hancock Center, Room 2023**

Directions: Building 14 on the map at <http://www.marist.edu/about/map.html>

Parking: Please park at black dot #10 on <http://www.marist.edu/about/map.html> (the lot North of the Hancock Center #14) or in the lot on the South-East corner of Route 9 & Fulton St. (S/E of the former Main Entrance).

About the Topic: If you run production software on any network, you know that the world is a chaotic place. All sorts of things can cause your software to fail which can cost money, time, reputation, or all three. In this talk you'll get an introduction to what chaos engineering is, where it came from, and how you can use it to build more resilient software.

About the Speaker: Sean is the founder of Squidwrench and a collector of hobbies. When not tending to programming, electronics and other techy arts at Squidwrench, he is helping people to break things at Gremlin. Previously he worked at DigitalOcean and IBM among others.

Cost: Our meeting is **Free** and open to the public

Dinner: 6:00 pm, Palace Diner, 845.473.1576
Map and menu: www.thepalacediner.com
All are welcome to join us for dinner

We thank Marist College for hosting the chapter's meetings.
